

SUPERALENE

Leather Auxiliary

Technical Information

Nature :

Anionic Premetalized dyestuffs solutions

Analytical Data :

Appearance	:	Coloured liquid
Solid Contents	:	7 ± 1
Solubility	:	Water/Solvents
Charge	:	Anionic

Behaviour :

This SUPERALENE series of liquid dyes is composed of carefully selected solvent soluble metal complex dyes, Superalene series of dyes can be diluted with water & organic solvent. With mixture of water and water miscible organic solvent. This series gives very bright shades with good fastness to light & UV radiation. These colours can be used on Undyed crust, season & top coats to improveing, depth & brilliancy. These dye solution are also added to top coat systems to increase the aniline look. Jet Black, fire red, Yellow-GG, Blue-GM, Orange-RL, Maroion, Green-BL, Brown-RRL, Dark Brown-RR etc. Shades are offered in Superalene range.

Application :

(1) Drum Dyed Leather (D.D.)
