

SUPER CATALENE

Leather Auxiliary

Technical Information

Nature :

Cationic Dye Solution in High Value Solvents

Analytical Data :

Appearance : Coloured liquid

Concentration : More than 8%.

Charge : Cationic

Behaviour :

- All colours of Super Catalene are miscible with each other, thus it is very easy to match the required shade.
- They have very good covering power like cationic pigments, thus could be turned from one shade to the other one.
- All of Super Catalene colours are having very good rubbing fastness, with high brilliancy.

Application :

(1) Nubuck and Suede

Super Catalene 100-200 Parts

Water/Thinner 900-800 Parts

1 cross spray at 35-50 lb/inch sq. Dry.
